Las águilas son aves rapaces diurnas que forman parte de la familia Accipitridae, junto a los buitres del viejo mundo. Se trata de animales muy admirados por los seres humanos, aunque algunas personas pueden considerarlos aterradores. Se debe a su fama de voraces depredadores y, no es para menos, ya que las características de las águilas están muy...

The barred owl (Strix varia), also known as the northern barred owl, striped owl or, more informally, hoot owl, is a North American large species of owl. A member of the true owl family, Strigidae, they belong to the genus Strix, which is also the origin of the family's name under Linnaean taxonomy. Barred owls are largely native to eastern North America, but have...

Nov 17, 2021 · Cancer immunoediting is the dynamic process whereby cancer cells modify the immune microenvironment to their advantage. In a typical cancer scenario, altered protein products caused by genetic mutations function as neoantigens, eliciting an immune response against cancer cells (Schumacher and Schreiber, 2015). In parallel, the inflammatory, hypoxic...

A dictionary file, dict_files/eng_com.dic. This class can parse, analyze words and interpret sentences. It takes an English sentence and breaks it into words to determine if it is a phrase or a clause. It can also count the total number of words in a sentence, check if a word is a palindrome and can generate a new sentence with almost the same meaning using synonyms.
